

Farhan Riaz

Professional summary

A proficient software developer with expertise in JavaScript (ES6+), TypeScript, and Node.js, specializing in both frontend and backend development. Demonstrates strong capabilities in building responsive web applications using React.js, Next.js, HTML5, CSS3, and Tailwind CSS. Skilled in developing robust backend systems with Nest.js and RESTful APIs, ensuring secure JWT authentication. Experienced in managing databases such as SQL and MongoDB, while utilizing tools like Git and GitHub for version control. Committed to leveraging technical skills to drive innovation and efficiency within dynamic development environments.

Work history

Personal Portfolio Website - Full-Stack Web Developer

Dubai town., Lahore

08/2025 - 12/2025

- Developed a **production-ready, multi-page portfolio application** leveraging React.js and Tailwind CSS, ensuring scalability and maintainability.
- Implemented **client-side routing** and **reusable, modular components** to reduce code redundancy and enhance development efficiency.
- Engineered **fully responsive layouts** optimized for desktop, tablet, and mobile devices, improving user experience across all platforms.
- Deployed the application on Vercel with a **GitHub-integrated CI/CD workflow**, enabling automated builds and seamless continuous deployment.

Spray Center Website - Full-Stack Web Developer

Olakh Ottar , Kasur

01/2025 - 05/2025

- Developed a **full-stack business web application** for a spray shop using React.js and Strapi, ensuring a scalable and maintainable architecture.
- Designed and implemented **RESTful APIs in Strapi** to efficiently manage services, products, and bookings.
- Integrated the frontend with backend APIs to enable **robust CRUD operations** and seamless data flow.
- Engineered **reusable React components** to optimize client-side routing and enhance overall application performance.

Additional Exposure

- Flutter (basic), Dart (basic)
- Firebase Authentication, Firestore (introductory level)

Skills

Core Technologies:

JavaScript (ES6+), TypeScript, Node.js, React.js, Next.js

Frontend:

HTML5, CSS3, Tailwind CSS, React Router

Backend & APIs:

Node.js, NestJS, RESTful APIs, JWT Authentication, Strapi (Headless CMS)

Databases:

SQL, MongoDB

Tools & Platforms:

Git, GitHub, Vercel

Education

02/2023 - 02/2027

Superior University

Lahore, Pakistan

Bachelor of Science: Software Engineering
CGPA: 3.34
