PROFESSIONAL SUMMARY

Results-driven Full-Stack Web & Flutter Developer with hands-on experience building scalable, responsive, and high-performance web and mobile applications. Strong expertise in React.js, Node.js, Flutter, REST APIs, SQL databases, Firebase, and Strapi CMS. Adept at designing modular architectures, implementing secure authentication, integrating third-party APIs, and managing application state. Passionate about writing clean, maintainable code and delivering real-world solutions with strong user experience and performance focus.

TECHNICAL SKILLS

Programming Languages

JavaScript (ES6+), Dart, C++, SQL, Python (Machine Learning – Basics)

Frontend Development

React.js, Flutter, Tailwind CSS, ShadCN UI, HTML5, CSS3, Responsive Design, Component-Based Architecture

Backend Development

Node.js, RESTful APIs, Firebase, Strapi CMS, Authentication & Authorization

Databases

MySQL, PostgreSQL, Firebase Firestore

Tools & Platforms

Git, GitHub, VS Code, Postman, Docker (Basics), Kaggle, Vercel

Core Competencies

API Integration, State Management, CRUD Operations, OOP, Data Structures & Algorithms, Mobile App Development, Debugging, Performance Optimization

PROJECT EXPERIENCE

Personal Portfolio Website – Full Stack Web Application

React.js, Tailwind CSS | 2025

- Designed and developed a dynamic, multi-page portfolio showcasing skills, experience, projects, and contact details.
 - Implemented reusable React components, client-side routing, and responsive layouts for cross-device compatibility.
 - Optimized performance and maintained a scalable, clean folder structure following best practices.
 - Deployed on Vercel with GitHub-based version control and CI workflow.
-

Spray Center Website – Full Stack Web Application

React.js, Node.js, SQL, Tailwind CSS | 2025

- Developed a responsive business website for a spray shop with service listings and product showcases.
 - Built and integrated RESTful backend APIs for products, bookings, and service management.
 - Implemented CRUD operations, routing, reusable components, and state management in React.
 - Structured the application for scalability, maintainability, and clean separation of concerns.
-

Kids Learning App – Flutter Mobile Application

Flutter, Firebase Authentication, Firestore | 2025

- Built an interactive learning application for children with lessons, quizzes, and engaging UI elements.
 - Integrated Firebase Authentication for secure access and Firestore for real-time data storage.
 - Implemented multi-screen navigation, basic animations, and user-friendly layouts.
 - Followed modular Flutter architecture to support future feature expansion.
-

ADDITIONAL PROJECT & DEVELOPMENT EXPERIENCE

- Experience implementing authentication systems, form validation, and role-based access control.
 - Hands-on experience consuming REST APIs using Axios and Fetch.
 - Familiar with modern UI/UX principles and mobile-first development.
 - Experience deploying applications and managing environments using Git-based workflows.
-

EDUCATION

Bachelor of Science in Software Engineering

Superior University, Gold Campus, Lahore

2023 – 2027 | 7th Semester

CGPA: 3.34 / 4.00
