SKILLS

Core Technologies: JavaScript (ES6+), TypeScript, Node.js, NestJS, React.js, Next.js
Frontend: HTML5, CSS3, Tailwind CSS, React Router, React Hook Form
Backend & APIs: RESTful APIs, JWT Authentication, Strapi (Headless CMS)
Databases: SQL, MongoDB
Tools: Git, GitHub, Vercel, Axios

PROFESSIONAL SUMMARY

Full-Stack Web Developer with hands-on experience in React.js, Node.js, NestJS, and Strapi.
Strong background in building responsive web applications, RESTful APIs, and scalable backend
systems. Experienced in developing production-ready projects with clean architecture,
authentication, database integration, and cloud deployment using GitHub and Vercel.

WORK HISTORY

Full-Stack Web Developer, 01/2025 to 05/2025
Personal Portfolio Website
- Developed a production-ready, multi-page portfolio application using React.js and Tailwind CSS,
following a component-based architecture.
- Implemented client-side routing and reusable components, reducing code duplication and
improving maintainability.
- Designed fully responsive layouts to ensure consistent performance across desktop, tablet,
and mobile devices.
- Deployed and maintained the application on Vercel with a GitHub-based CI workflow, enabling
automated builds and updates.

Full-Stack Web Developer, 01/2025 to 03/2025
Spray Center Website
- Developed a full-stack business web application for a spray shop using React.js for the
frontend and Strapi as a headless CMS for backend services.
- Designed and implemented RESTful APIs in Strapi to manage services, products, and bookings.
- Integrated frontend with backend APIs to perform CRUD operations and dynamic data rendering.
- Built reusable React components and implemented client-side routing for a smooth user
experience.
- Structured the application with clear separation of concerns to support scalability and
future enhancements.

EDUCATION

Bachelor of Science: Software Engineering, 01/2023 – 01/2027
Superior University - Lahore, Pakistan
CGPA: 3.34

ADDITIONAL EXPOSURE

- Flutter (basic), Dart (basic)
- Firebase Authentication, Firestore (introductory level)
